City of Bloomington Utilities Fire Hydrant Flushing Schedule for the Week of June 22 through June 26

Bloomington, Ind. – Please be advised the City of Bloomington Utilities will be flushing fire hydrants inside an area bordered by the roads listed below during the week of June 22 through June 26. This fire hydrant flushing schedule is subject to change each day if each day's work is not completed as scheduled or due to bad weather.

- **North: East 10th Street**
- **South: East 3rd Street**
- **East: North Park Ridge Road/South Park Ridge Road**
- **West: North Lincoln Street**

A door tag will be used to notify residences inside the area. Customers are cautioned to be careful on or about these days as the water can be rust-colored and will be harmful to laundry as far as staining. If the water becomes discolored, let the cold faucets run for a short while and it should clear up. This work poses no public health risk.

All reasonable efforts will be taken to minimize the inconvenience to the public. Drivers are asked to avoid driving through water discharging from a fire hydrant during the short flushing period.

For more information, please contact the City of Bloomington Utilities at 812-339-1444.
